AgE Ideation Process;

We approach each project as a true collaboration in ideation - the process of creating new Ideas. We offer our expertise and guidance whenever needed to ensure that the entire process is as smooth and enjoyable as possible.

AgE Global Group's commitment to quality is with our clients from concept through to post implementation support, so clients can sleep well both during and after the development process.

We believe the ideation process begins in the moment we connect with our clients. Our goal is to provide strategies and solutions that go beyond the expected. To make sure we deliver, we embrace the ideation process. Through this process we have been able to hear the voice of our customers and to understand their goals (and then listen again).

Project Management Approach:

We approach each client engagement using a documented set of policies, processes, and procedures. Each client is assigned a project manager who acts as the primary point of contact for the organization OR Managing Director will walk through the entire process of development.

This project manager or the managing director Of AgE Global Group guides the project team through the development process to ensure timely and high-quality completion. The AgE Global Group team uses a comprehensive set of checklists, tasks and procedures that are tailored to each client.

Our approach also includes co-location of all team members to encourage collaboration. In addition, daily project status meeting are held that focus on answering three questions: (a) "What have you done since yesterday?"; (b) "What are you planning to do today?"; and (c) "Do you have any problems preventing you from accomplishing your goal?". This transparency and daily review of progress mitigates risk and ensures that close management of the project occurs at every stage. Behind the scenes the executive team ensures service quality.

1. **Everything in one Roof**

   It feels good to trust a company that is stable and secure. We're financially sound. We have the Products, services, solutions, support and expertise that will take care of you now and in the future.

Web Development

Any business that does not have a website is missing out on one of the most influential marketing tools available to them.

93% of Business Purchase Decisions Start with a Search Engine Search so if you haven't a website only you can reach 7% of the market potential

The main reason that it is important for businesses to have a website is how people are likely to find you. These days most people will go online and research products and companies before they make a purchase, if you don't have a website you are missing out on all of this potential business. Even if people don't buy your product online they are still likely to research it online so you have to have a website to help visitors to learn about your business.

Digital Marketing

Digital marketing is not a new subject. But most of the online campaigns and marketing efforts only focus to gain like or followers to their social network pages. And some of the others try to land visitor to their webpage.

Is that enough? No, Here Why.

- Facebook estimates that between 5.5% and 11.2% of accounts are fake.
- You need to use best practices.
- You need powerful analytic tools to increase online marketing conversion rate.
- You need various online activities than just posting an ad.
- Many online advertisement institutes are maintaining their own hundreds of social profiles to manipulate the like/ follower.
- Not all of followers get your social media announcements.
- Digital world rapidly changing.

If your company has a goal to make good profit from online marketing, so you will definitely need us as your partner. Don't worry every modern business love to reduce their operating cost and increase profit by outsourcing a trusted digital marketing company.

Why many choose us?

- The effectiveness of our revolutionized digital marketing campaigns.
- You no need to recruit an employee for online marketing and monitoring . (you save Avg LKR 30,000 monthly)
- Trustworthiness and friendly flexible support.
- Dedication to mission
- Our experience in online marketing.
- Accountability
- Win-win Situation (We win because you win)
- Our first priority is to help you map, plan and manage your digital marketing as efficiently as possible.
- Best practices in digital marketing.
- We really know what we do

Here's what we cover as your future revolutionized digital marketing partner

- Social media marketing
- Content marketing
- Retargeting,
- Mobile advertising
- Community building

Digital Design

Logo is the foundational element of a company's branding strategy. It intended to be the "face" of the company. So start design a simple, memorable, enduring, versatile, appropriate and powerful face for your company.

What we do

- LOGO
- Business Cards
- Letterheads
- Paper Advertisement
- TV Advertising
- Billboard
- Any Other Digital Designs

E-commerce solutions

Comprising of B2B (business-to-business), B2C (business-to-consumer) or the C2C (consumer-to-consumer) categories, e-commerce has resulted in a reshuffle of the world's business priorities, be it consumers or producers/sellers. Apart from the removal of geographical barriers, our e-commerce services offers immense potential for expansion and promotion, especially through the specifics-driven and focused marketing that the Internet has made possible.

Physical, digital? Sell anything. Anywhere with AgE

- Reliable Development Frameworks
- Easy to Navigate Powerful Websites
- Mobile Apps for Stores
- Unlimited Fast Web Hosting
- Trusted Payment Gateways
- E-Marketplaces
    - Marketplace with Independent Stores

      Similar to ebay stores, Your Art e-marketplace allows anyone to setup their own store within minutes, turning your website into a fully-fledged marketplace.
    - Dashboard for Each Seller

      Customers and Vendors get access to a simple, straight-forward dashboard that allows easy management of product inventory, including sales, discounts and promotions.
    - Earn From Each Sale

      You can charge your sellers a percentage for each order, giving them an e-commerce solution free of any monthly fees. A fair commission model allows both parties to share the success of your marketplace!
    - Bird's Eye View with Reports

      Every seller can see his/her own sales report and see a bird eye view on the sales they are making.
    - Coupon Management

      Every seller manages their own products and discounts they offer. What's more, create discount coupons for special sales!
    - Individual Stores

      Sellers get their own store page with their own branding. Logo, wall Image, social links, and small description.
    - Manage Product Reviews

      Each seller manages their own product reviews independently. Delete, mark as spam or modify the product reviews on the fly.
    - Manage Orders

      Each seller manages their own orders, mark orders as pending or processed, view the shipping and billing address and ship the products.
    - Review Product Publishing

      Each seller reviews their own orders to get clear idea about orders, pending or processed.
    - Control Selling Capability

      You can activate/deactivate merchants and select which merchant that can sell their products. Promote them to become 'trusted sellers' to publish without delay!

Vehicle Importers Personal Calculator (VIP Cal)

As AgE Global Group, We are very proud to provide and recommend this innovative VIP Cal to any kind of medium and large scale vehicle importers in Sri Lanka.

Under Estimated Value Calculation

We know how hard to calculate the real cost of your vehicle inventory with different currencies (Rs. and Yen-¥), and it's too hard when it comes to big and fast moving inventory. Now your problem solved! You can totally forget Under Estimated Vs. Real Value Calculation with this innovative solution.

Tax and Other Cost Calculation

We know there are many other costs that related to any vehicle import. Multiple Taxes, Clearing charges, Shipping charges, and many other fixed costs.

Don't worry, VIP Cal calculates all the costs related to each vehicle you have in your inventory.

Daily Cost Calculation

Your bank manager /partner is waiting for the interest what you have borrowed from him for your inventory. It increases your inventory cost daily. So daily some of your vehicles increase its cost by thousands. So you have to properly calculate it. With VIP Cal, It's easy as ABC. Just list your inventory and forget!

Work Anywhere with Any Device

VIP Cal is running on the power of Cloud Computing, No software installation, No special device requirements and it also come with Live Support and updates. You can use it anywhere you go with any smart device you hold. Only thing you want is the internet assess. You will be amazed- your life becomes easier and more productive.

Multi User Privileges

Let someone to update your vehicle inventory, Monitor every step he takes. You can make as many users you want. See what they have done and edit in the VIP Cal.

As your own Boos, you always in charge. No one can totally control your VIP Cal except you.

There are More Things

We can't publish some of the main advantages publicly, but there are a lot more to say. And we are very aware about our client's privacy and secrets of any business. Therefore, every information you store with VIP Cal is encrypted and no one (Even AgE's Staff Can't) can view anything without username and password.

ZETA Point of Sale (POS) System

Zeta POS is one ZETA's fastest selling software around the world. It's all about usability, reliability and security that you can depend on. With ZETA complete, secure POS solution, you will not only going to amaze your retail client, but also you will go to get accurate and fast discussion about your store and hot selling items.

Zeta POS can be integrated with inventory, purchase orders, sales order and back end accounting. It can also be integrated with CRM, HRMS and Document Management modules. Designed for the needs of independent retailers, the POS system helps you to run your business rather than just report on it. Much more than just a POS software, Zeta POS is a complete integrated business management system that will help you to control your business from front counter sales, to the storeroom, to your back office accounting, and everything in between.

Zeta POS can manage your business from end to end by updating sales information in inventory and financial modules. It also shares information throughout branches. It allows you to maintain absolute control over sales and inventory while presenting an easy customer checkout process. It is a great solution for both sales and counter.

Zeta POS has evolved into a cutting-edge system while simplicity has remained a priority. It will enhance your operation, providing increased speed, accuracy and control of your inventory. All of which lead to increased profits and more time to focus on growing your business. Zeta POS interface is easy to navigate, and is compatible with touch screen terminals and barcode scanners, helping to save time when ringing up sales and preventing cashier errors. The POS system can also apply discounts, promotion and report on sales by the sales person or item, and is an asset in inventory management.

Document Management Software (DMS)

ZETA Document Management Software (DMS)

ZETA DMS is a central document repository for all types of documents. Easily share your files and photos online. Allow multiple users to work and collaborate real-time on a document simultaneously. Instant chat allows real-time collaboration & discussion over the document across users over varied time zones.

Across the globe, billions of paper documents are produced by individuals, small offices and large organizations every day. Many of these documents are read once, filed away and forgotten about. As the months and years go by, a huge amount of costly office space gets blocked so that these paper documents can be stored in filing cabinets on-site or on off-site rented locations. Given the constraints that today's businesses – especially small businesses – face in terms of time and other resources, a more efficient way of managing documents is the need of the hour. The answer is in having an Electronic Document Management Software for small business.

Product Features
- Zeta ERP Doc Stores
- Zeta Common Doc Stores
